

# ISO/IEC 42001 Certification

Govern AI Responsibly. Build Trust. Drive  
Innovation.

**ISO/IEC  
42001**

 **APMG**  
International

## Empowering Responsible AI Adoption

### What Is It?

ISO/IEC 42001 is the first international standard for AI management systems. It provides a structured framework for organisations to govern AI use responsibly, ethically, and effectively.

### Why It Matters?

AI is rapidly transforming industries. Without proper governance, organisations face risks in compliance, ethics, and operational integrity. ISO/IEC 42001 helps:

- Establish trust in AI systems
- Ensure legal and ethical compliance
- Align AI use with strategic goals

### The Risk of Doing Nothing

- Exposure to legal and ethical risks
- Loss of stakeholder trust
- Missed opportunities in AI innovation

### What You'll Gain

- A globally recognised framework for AI governance
- Tools to assess and improve AI maturity
- Confidence in managing AI risks and opportunities
- Internationally recognised and vendor-neutral
- Practical guidance for implementation
- Supports regulatory compliance
- Enhances organisational reputation and trust

### Get Certified. Govern AI with Confidence.

Lead your organisation into the future of responsible AI.

### Who Is It For?

- AI and Data Governance Professionals
- Risk and Compliance Officers
- IT Managers and CIOs
- Legal and Regulatory Experts
- Executives overseeing AI strategy

### Qualifications Available

- ISO/IEC 42001 Foundation
